

Place Value - Find the Missing Place Value

Fill in the missing place value to solve the math equation

Example:

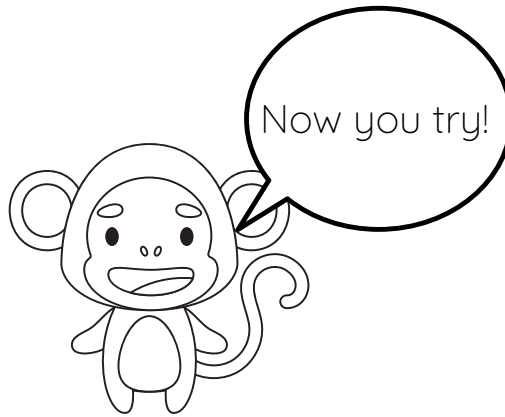

Q: $200 + \underline{\hspace{2cm}} = 250$

A: $200 + \underline{50} = 250$

Example:

Q: $\underline{\hspace{2cm}} + 80 = 180$

A: $\underline{100} + 80 = 180$

$300 + \underline{\hspace{2cm}} = 340$

$\underline{\hspace{2cm}} + 60 = 760$

$\underline{\hspace{2cm}} + 60 = 760$

$800 + \underline{\hspace{2cm}} = 836$

$\underline{\hspace{2cm}} + 56 = 256$

$\underline{\hspace{2cm}} + 90 = 990$

$400 + \underline{\hspace{2cm}} = 445$

$600 + \underline{\hspace{2cm}} = 634$

$\underline{\hspace{2cm}} + 44 = 544$

$100 + \underline{\hspace{2cm}} = 120$

$200 + \underline{\hspace{2cm}} = 267$

$\underline{\hspace{2cm}} + 44 = 544$
