

## Subtraction Worksheet - Subtracting 2-Digit Numbers From Whole Hundreds

Find the Difference.

$200 - 56 = \underline{\quad\quad}$      $300 - 51 = \underline{\quad\quad}$      $600 - 78 = \underline{\quad\quad}$      $400 - 85 = \underline{\quad\quad}$

$500 - 74 = \underline{\quad\quad}$      $900 - 25 = \underline{\quad\quad}$      $300 - 33 = \underline{\quad\quad}$      $700 - 27 = \underline{\quad\quad}$

$100 - 36 = \underline{\quad\quad}$      $200 - 53 = \underline{\quad\quad}$      $400 - 66 = \underline{\quad\quad}$      $700 - 72 = \underline{\quad\quad}$

$300 - 43 = \underline{\quad\quad}$      $600 - 29 = \underline{\quad\quad}$      $100 - 55 = \underline{\quad\quad}$      $600 - 48 = \underline{\quad\quad}$

$900 - 99 = \underline{\quad\quad}$      $200 - 51 = \underline{\quad\quad}$      $800 - 64 = \underline{\quad\quad}$      $700 - 35 = \underline{\quad\quad}$

If it's difficult, that's okay! You're learning. Keep practicing. You'll get it in no time.
